SUMMARY

Dedicated Security Professional with 1.5 years of corporate experience and 2+ years as an Independent Security Researcher. Currently ranked in the Top 400 globally on Bugcrowd. I have identified vulnerabilities across Web and API surfaces with a specialized focus on Cloud IAM and business logic exploitation. I have also worked on securing enterprise environments and supporting rigorous compliance standards like ISO and SOC 2 in my previous role.

SKILLS

- Web and API Security
- Vulnerability assessment and Secure coding
- OWASP vulnerabilities
- Cloud Security

EXPERIENCE

Independent Security Researcher, Bug Bounty, August 2022-Current

- Identified and reported critical Cloud IAM misconfigurations and authorization flaws, preventing potential full account takeover and privilege escalation.
- Discovered and reported complex business logic vulnerabilities and API misconfigurations, enhancing overall security posture.
- Achieved a Global Top 400 ranking on Bugcrowd and reported valid vulnerabilities to programs including DigitalOcean, GitHub, GitLab, Atlassian and others.

Security Analyst, Vantage Circle, August 2022-December 2023

- Led incident response activities, successfully mitigating and resolving production-level security threats.
- Executed comprehensive VAPT for Web and API applications, ensuring robust defense across product offerings.
- Advised internal stakeholders on secure implementation of new features, enhancing overall security posture.
- Facilitated ISO and SOC 2 certification processes through policy enforcement and secure practices.

CORE EXPERTISE

- Offensive Security: Specialized in Web and API Penetration Testing (VAPT) and finding OWASP Top 10 vulnerabilities.
- Cloud Security: Expertise in Identity and Access Management (IAM), identifying privilege escalations, and testing cloud infrastructure.
- Technical Communication: Delivering high-quality Proof-of-Concepts (PoCs) and detailed remediation reports for various stakeholders.

EDUCATION

eLearn Security Junior Penetration Tester January 2023

B.Sc. Cloud Computing & Information Security, Assam Down Town University January 2022
